In a spirit of fun, the other day, some of the boys presented to Ross Davis an imitation diamond (?) ring. Ross got mad and "cussed" and the boys had the laugh on him - this is all.

It is a violation of the new election law to have upon the street election day either a legal or counterfeit ballot. Bear this in mind, everybody. The penalty is a heavy fine and imprisonment.

At the Hecla school the day was observed also. The room was tastefully decorated. Essays, recitations, singing, etc., by the children, under the direction of Miss Alice Mitchell, their teacher, comprised the day's exercises.

The interest taken by all parties in the new system of voting is encouraging. A full vote will likely be out on election day. Voters are becoming familiar with the new ballots, samples of which have been printed and placed within the reach of all.

The A. O. U. W. lodge of this city held a called meeting last night in their lodge room. The call was for the purpose of organizing a Legion of Select Knights, an auxiliary of that well known order. C. W. Trulock, of Henderson, acted as chief in the meeting.

A number of bottles of blackberry cordial have been stolen from a certain cellar in this man's town recently, much to the annoyance of the owner, who was using the cordial for medicinal purposes. We are requested to say, however, that if the thieves will return the empty bottles, all will be forgiven.

Are We Right?

Mr. Joe Robertson and Miss Mattie Wendelin went to Henderson yesterday ostensibly for the purpose of taking their friends here by surprise. The Henderson Gleason on Tuesday stated that this young couple had procured marriage license in that city, and we believe all it says in this particular. Here's congratulations and best wishes for the happy couple.

Columbus Day Observed.

While other and greater cities were celebrating Columbus Day throughout this glorious land of ours, Earlington was to be found in that great column. The Parochial and both public schools held appropriate exercises. No union or concentration of pupils was attempted, but the exercises were held simultaneously in the several school buildings. The rooms where the exercises took place were all decorated in a way appropriate to the occasion and commemorating the great discovery, and were given up entirely to the children. The exercise were rendered in a true American style.

Given Two Hours to Sleep.

The negro, Wm. McCullum, who cut up "high dudge," one day last week in an attempt to terrorize the whole community, was tried before the County Court at Madisonville last Friday. The memories of some of the witnesses for the state failed (th) them and in consequence the charge brought (th) that of threatening life and estate - could not be sustained. It was deemed advisable, however, that the gentleman of color be

given ample time, and no more, to quit these parts. Two hours' time was given him. A thorough search in his old haunts in this city after the expiration of the time given him revealed the fact that he had left to seek a more congenial climate.

Moore and Gray.

Masonic Hall in this city was crowded last Saturday evening. Both Democrats and Republicans were out in large numbers. The occasion being a joint discussion between Messrs A. C. Moore (Rep.) and J. L. Gray (Dem.), the two candidates for Commonwealth's Attorney in this district.

Mr. Moore was the first to speak. His address was one of forty minutes' length. Mr. Gray in reply spoke the same length of time, after which Mr. Moore made a few closing remarks. Personalities were so freely indulged in that those present now know all, or nearly all, the shortcomings of the respective candidates. The thoughtful voters will vote accordingly as a matter of course.

A DEMOCRATIC TRICK.

EXPOSED BY A CATHOLIC INDIAN MISSIONARY.

How Their Sympathy for their Colored Brethren Touchingly Manifested Itself "Before the November Election."

SACRED HEART MISSION, FORT BERTHOUD, N. DAKOTA.

MR. PATRICK FORD, Editor Irish World.

DEAR MR. FORD: I see by the Irish World of the 3d inst. that cordial relations have been renewed between the Catholic Church and the Indian Department. In the same mail that brought the Irish World I received a letter from the editor of a Catholic journal [a Democrat] asking for an article "to excite sympathy for the injured Indians," saying that he had written to Fathers Stephan and Palladius, and that several papers on the Indian situation would appear in the same number of his journal, and urging on me the necessity of bringing out facts "before the November elections." It seemed to me that the Catholic Bureau might possibly intend to get in their work by making a blow for Cleveland. After the kindness of Secretary Noble and President Harrison to us - at the time when Morgan was misled by bad advice - and the Bureau were aiding the attack to get rid of us, and at the same time raised a fight against Morgan by getting me and my friends to take vengeance on him for destroying the Sisters, I would do wrong to lend myself to any such move. At any rate, I do not like to see underhand attacks.

The system of the Indian Department is, no doubt, defective; but President Harrison and Secretary Noble have done their best under all circumstances, and I would feel much safer in trusting them than those whose mistaken theories I know to well.

With best regards, I remain, yours sincerely,

(REV.) FRANCIS M. J. CRAFT.

The public schools here fell in line on Columbus day. The white school presented some very interesting tableaux in the hall at night to a crowded house.

John Palmer has accepted the position of Mine foreman for the new coal mining company, now preparing for work near Hamby Station. John is a good man, and the company did well in securing his services.

As predicted in our last letter the Democrats raised a Cleveland pole on Saturday, the 15th. The pole is hickory and one hundred and thirty feet high, with a rooster on top. The Madisonville Brass Band rendered march music for the occasion. At 4 p. m. when the National flag was unfurled we had three full gales of Democratic enthusiasm. Elector Headley led off with a rousing speech, and forth the claims of his party. He was followed by some of the Democratic nominees and other speakers, who received much applause. It was a big day but the boys used it all up.

Bilious Diseases.

Dizziness, want of appetite, sallow complexion, "high colored urine, irregular action of the bowels, light colored stools, lassitude, feverishness, often accompanied by dumb chills, aching limbs, and hot feet and hands and sleeplessness are symptoms of biliousness. Don't check the looseness of the bowels, but take a full dose of Carlsbad's German Liver Powder on retiring at night, and repeat the second night thereafter, and again the fourth night, and continue this until the system is thoroughly purified. A few doses of quinine may be necessary to stop the chills, but if you will keep Carlsbad's German Liver Powder all the time and take a dose occasionally, you will never be bilious. Price 25c per bottle at Robinson Bros' drug store.

HAMBY STATION.

A little boy by the name of Eddie Smith came near getting his eye put out with a base ball. Boys be careful.

Oscar Caldwell was on the chills last week. He has had two Boxton saw-mill chills, and says he don't want any more.

Well, boys, we know the reason. Dimmit keeps going to the saw mill. He is going to build a new house for himself, and you can guess who else.

L. D. Caldwell was on the sick list. While doing some work on top of his house he came near falling and in catching to prevent the fall came near breaking his back.

James Robinson accompanied the Misses Smith home from church. Jim, Jim, I saw your pa with a wagon load of shingles. Don't cry. He's going to cover the barn.

Our dear little Bennie C. went to the country Sunday. I'm afraid we will lose Bennie, if we ever see him again.

"Brother Dave, I'll be home tomorrow," and next day after he comes.

Oh Hamby, a prominent young man of this place, met with a painful accident while driving a team of mules, which became frightened and ran against a stump, and threw the wagon bed off. The wagon contained several pieces of beef, some of which fell on the ground, and while he was picking up the meat, he was stepped on by his hand and kicked him in the face, knocking several of his teeth loose and one out. We think that Ot will soon be going to Madisonville to see the dentist.

Constipated Bowels.

A fruitful cause of deranged menes and many other dangerous diseases is constipated bowels. Neglecting to attend the stool, sedentary habits and unwholesome diet are causes of the disease. It is very dangerous, because its effects are not observed at once.

Carlsbad's German Liver Syrup is as nearly a specific in the permanent cure of this disease as any medicine ever discovered. Any purgative medicine, while temporarily relieving constivatives, but German Liver Syrup makes a permanent cure if directions are followed, and does not shock the system of delicate ladies as calomel does. Price 50c and \$1.00. For sale by Robinson Bros.

Mason gave him his pellicane, and the people of Sebree didn't talk with his false Gods. He had an appointment at Slaughter's the next day, and the tireless man followed him there and shelled the woods in the direction he went. The Pettit forces in this county are retreating with their battered shields and broken spears.

It is indeed a sad sight to see an old man with gray hairs on his head, called to account for his evil doings.

Two of the St. Bernard expert ideologists from Mortons Gap, made a trip to this city last Sunday on their wheels.

The question now being discussed by our miners, during idle hours, is how to properly cast their ballots at the approaching election.

Very few of our miners stop to think of the serious effect on their earnings the adoption of the old State banking system would have on their earnings.

Pat Murray is now called the greatest would-be politician in the mines on the subject of tariff reform. Last night question seems to have not him after on that subject.

An event that occurred at Hecla last week was the death of Mrs. Lon Warner and child, both dying only a few hours apart and were buried Friday in the cemetery near here.

Will the miser be found voting for a party who favors a policy that will not only reduce their wages, but also one that will render the money they receive for their labor of an uncertain value.

Our miners turned out in large numbers to attend the joint discussion between Moore and Gray last Saturday night, but were somewhat disappointed in not hearing politics spoken of to any extent.

No sooner had the strong arm of protection withdrawn from the workers at Homestead than the devil, who seems to have complete control of the archangels on the outside, began showing his horns by destroying property, beating and in various ways intimidating those now at work. Of course this means more work for the grand juries who have of late been busy in this State, and it can be said to their credit that they have been governed by law and facts in returning their verdicts.

Accidents often overtake miners while in pursuit of their daily avocation, which often results in death, but we have never before seen recorded anything to equal the story quoted below, and while we doubt its truthfulness, we give it for what it is worth - "take a little for their stomach ache."

"A strange story comes from Port Royal, on the Baltimore & Ohio road. On Saturday night six miners employed in that locality purchased a quarter barrel of beer and taking it to the home of one of the parties proceeded to drink freely. Soon after the beer was exhausted, the whole party grew sick. Medical aid was summoned, when the doctor discovered that there was evidence of poisoning, the usual remedies were administered but to no avail. The men all died between Sunday night and Monday noon. The friends of the parties, believing that poison might have been placed in the beer, opened the keg and discovered a copper-headed snake about two feet long."

Encouraged by the lenity shown toward them by the courts of Idaho, the Union miners are again showing an activity that leads one to believe they are still under the control of the anarchic machine who do not hesitate to commit murder if a point can be gained thereby, as was shown by their acts of a few months ago, when dynamite was used on the poor non-union miners who were fighting to support himself and family - a right every good citizen should avail himself of, and the man or men who raise a hand to interfere in an unlawful manner with this God given privilege deserves a severe punishment different to that meted out by the Idaho courts. Not the man, dastardly threats have been made against the inoffensive women, and to show the disposition of these would be murderers, we give a special to the St. Louis Globe-Democrat: "WALLACE, IDAHO, Oct. 19. - Last night three armed men went into one of the tax-kills of the Gem mines and posted the following notice: 'Look, each one must now have a broad smile on his face, for this month is over 1500 pounds of giant powder will be exploded, and all this mine will be sent to hell. It is in the mine ready for action, fuse attached. If we can not work in the mines no one else shall. (Signed) Bloody Jack. The men were seen by a carman who was coming out of the tunnel with a car of ore. When he caught sight of the armed men he ran back into the tunnel and reported the matter to the shift boss. When they came back to the mouth of the tunnel the men were gone and the above notice was found. The carman was unable to identify the men. This morning Mrs. John Monahan, wife of the foreman, of the Gem mine, received the following anonymous letter: 'DEAR MAM: I have a very fair daughter, my husband will be blown into fragments in a month, and the next fight will not be a milk-and-water one like the last. It is not thought the miners, a large number of whom are still in this country, will attempt at present to carry out their threats against non-union men, for they do not feel able to cope with the civil authorities backed by United States troops, but there is little doubt that all the troops were withdrawn now we would have a repetition of the bloody scenes of July. Monahan, the man threatened, is one of the men who was compelled to leave the country to avoid being killed last July, and the union men bear him a special grudge."

It is not usual for cubs contracted in the fall to hang on all winter. In such cases as catarrh or chronic bronchitis are almost sure to result. A fifty cent bottle of Chamberlain's Cough Remedy will cure any cold. You can afford to risk as much for so small an amount. This remedy is intended especially for bad colds and croup and can always be depended upon. For sale by St. Bernard Drug Store, Earlington; Ben T. Robinson, Mortons Gap; George King, St. Charles.

The Harrison and Reid club had an interesting meeting last week. Bro. Burt explained the manner of voting and how to fold the ticket, something which every voter should know before going to the polls. W. H. Ross, of Madisonville, also gave interesting talk upon the current issues of the day. Mr. Ross is well up with the times, and any club would do well to have him to represent them. T. H. Merritt, who is not behind the times, followed Ross with many good sayings.

Mrs. E. A. Garrett of Hopkinsville gave a lecture at the Baptist church Monday night in the interest of a proposed Normal School to be erected at Hopkinsville. They have a nice site for the school, and each pastor should do all they can in the way of raising money. After the lecture a collection was raised.

The Rev. L. F. Howard, P. C. who organized the C. M. E. Church at Hecla, in 1885, has been appointed by the conference as its pastor. The first third Sunday in each month he holds services. Columbus Day was passed away nicely by most all. The men worked while the women and children celebrated it, but at night we were all there. The A. M. E. church was packed in its utmost capacity by people ready to listen to the well arranged program, rendered by Prof. A. R. Bailey and his pupils, for which they deserve great credit.

The Harrison and Reid club had an interesting meeting last week. Bro. Burt explained the manner of voting and how to fold the ticket, something which every voter should know before going to the polls. W. H. Ross, of Madisonville, also gave interesting talk upon the current issues of the day. Mr. Ross is well up with the times, and any club would do well to have him to represent them. T. H. Merritt, who is not behind the times, followed Ross with many good sayings.
